

QTP 安装指南

2009年01月21日 星期三 15:43

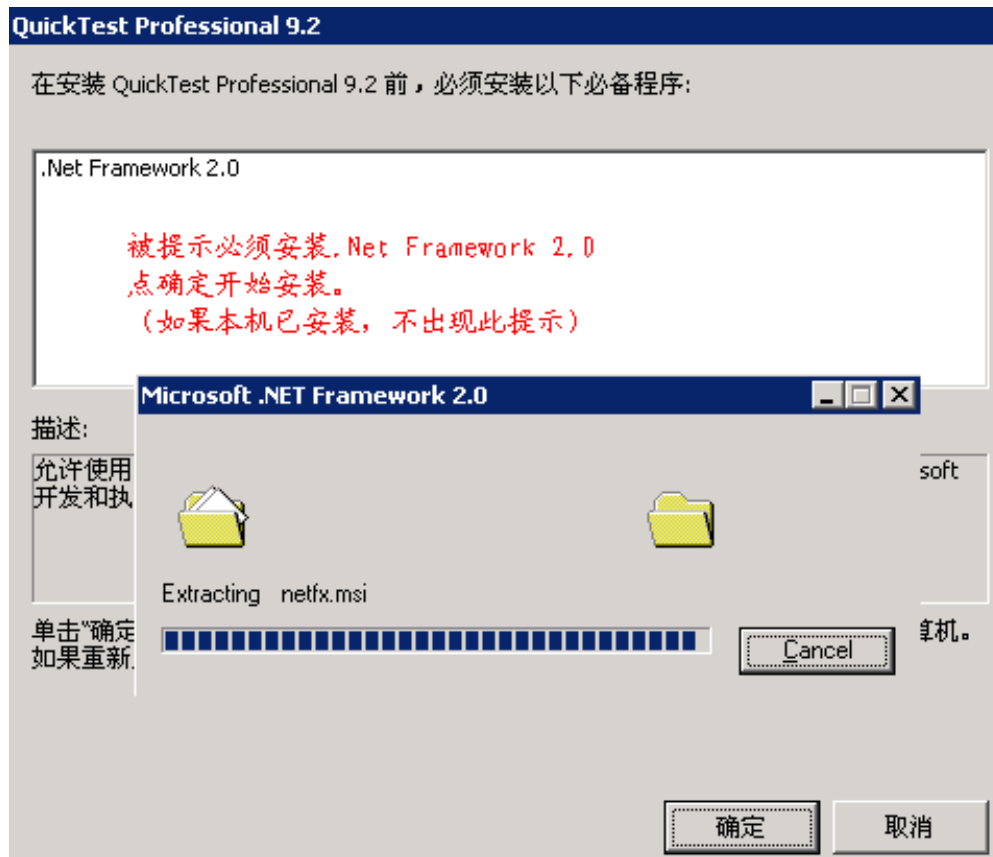

QuickTest 9.2 安装

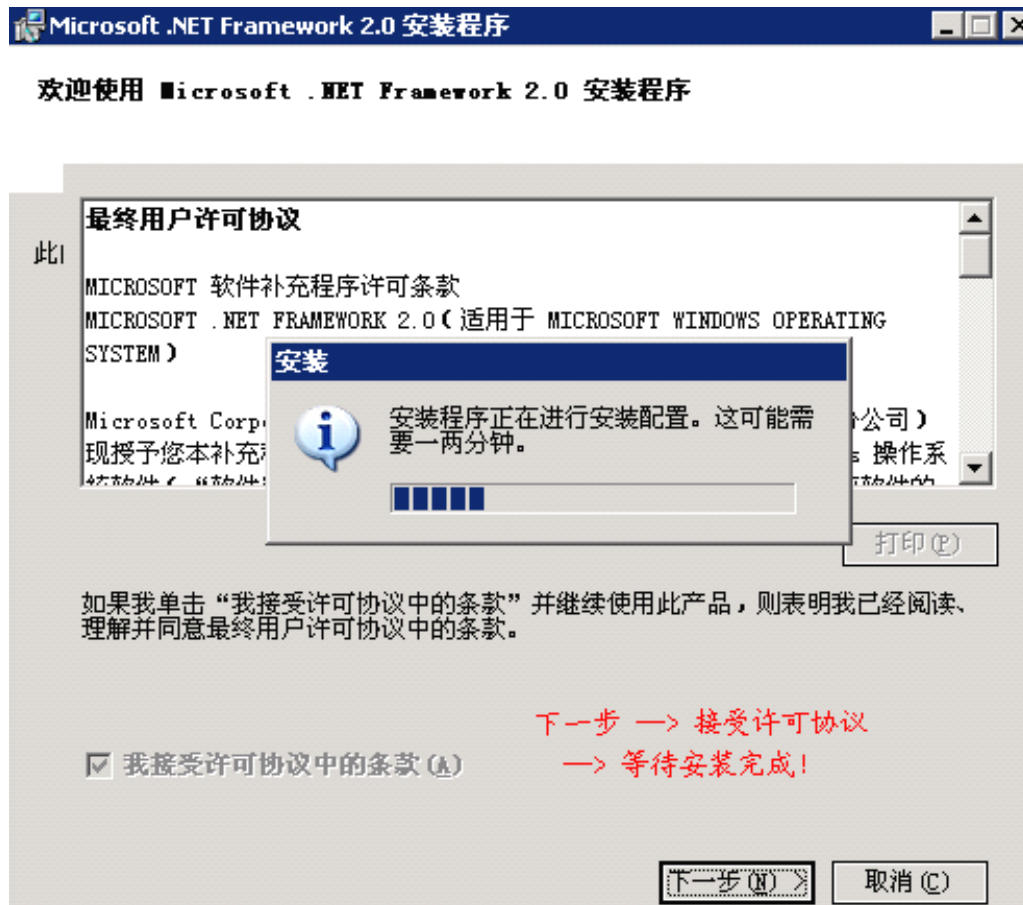

启动安装:

前置条件

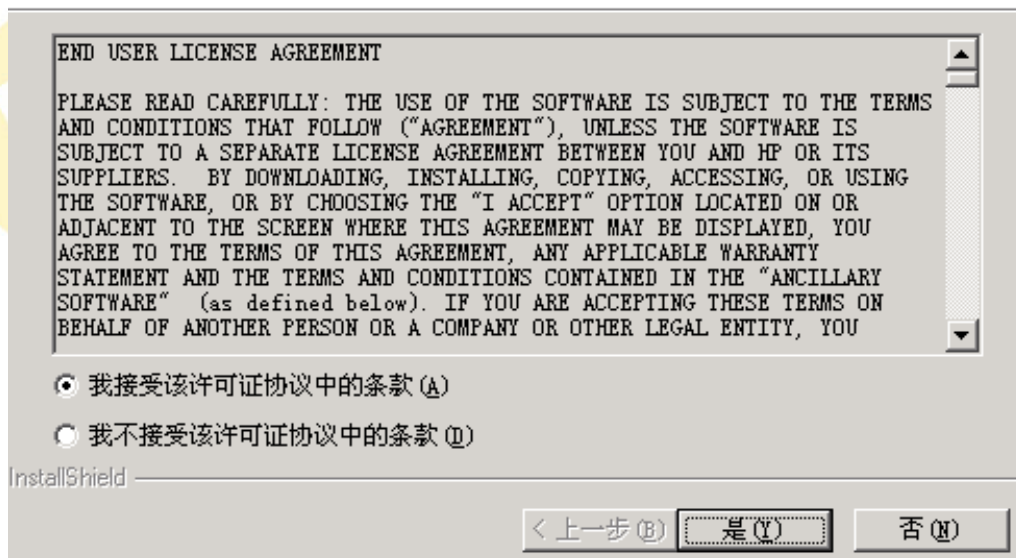

(.net Framework 2.0)

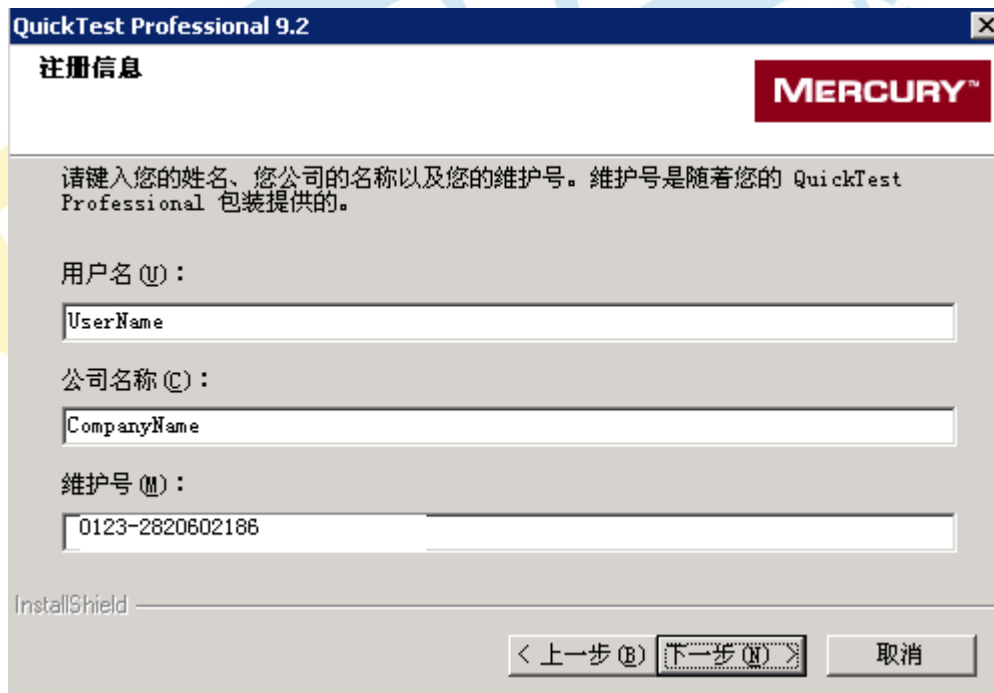

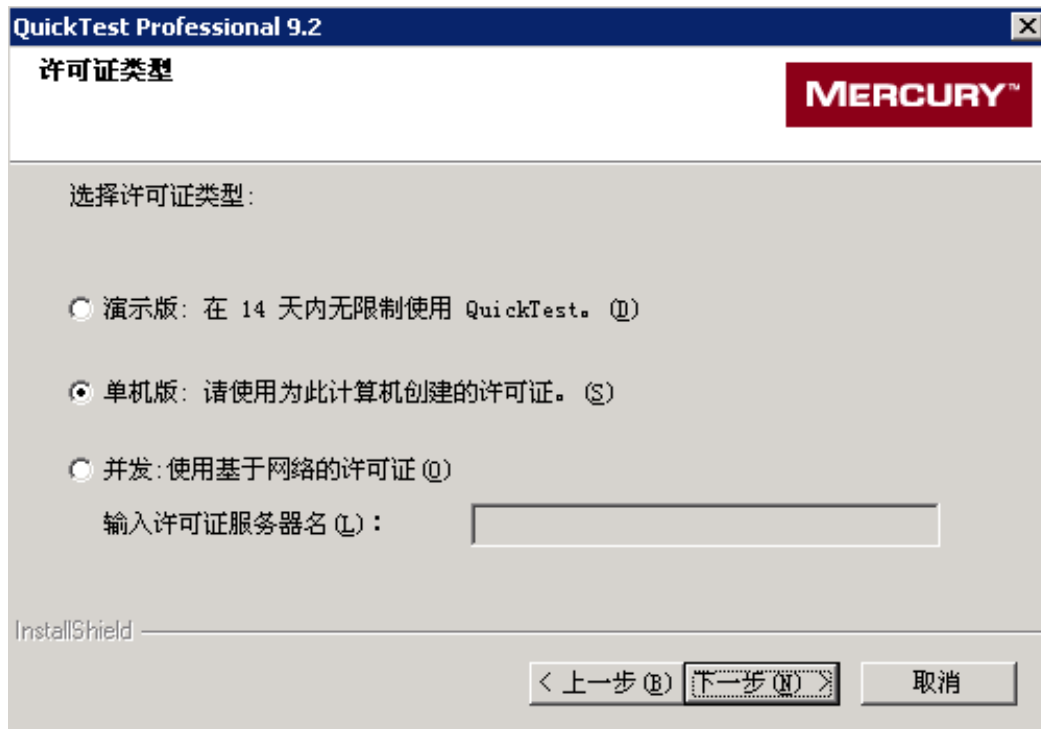

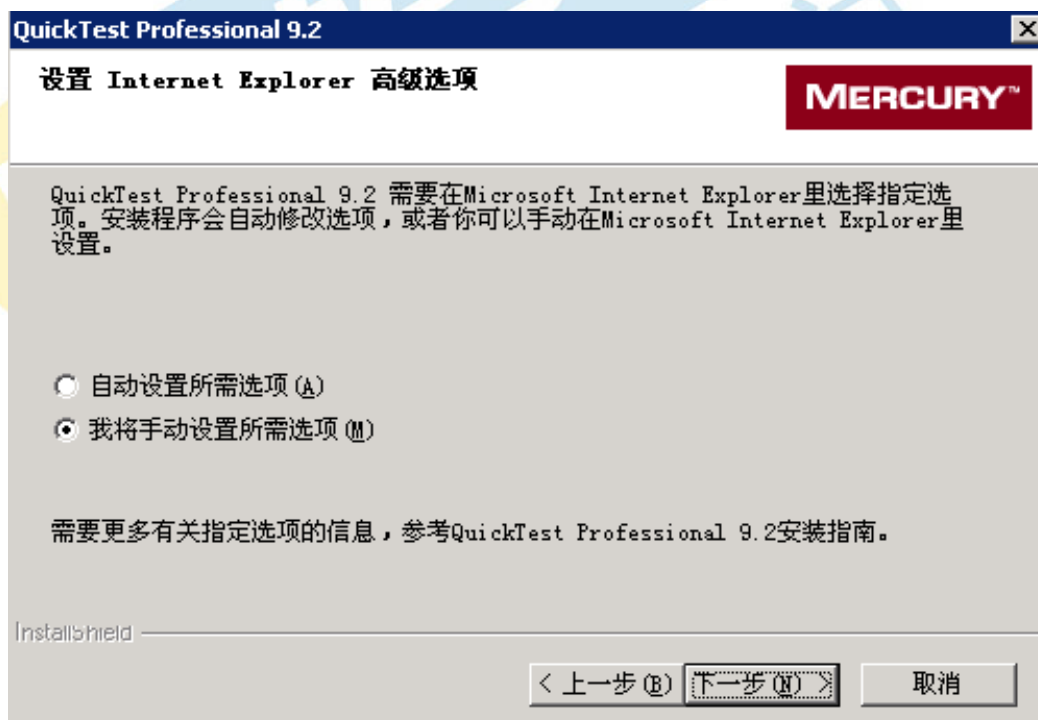

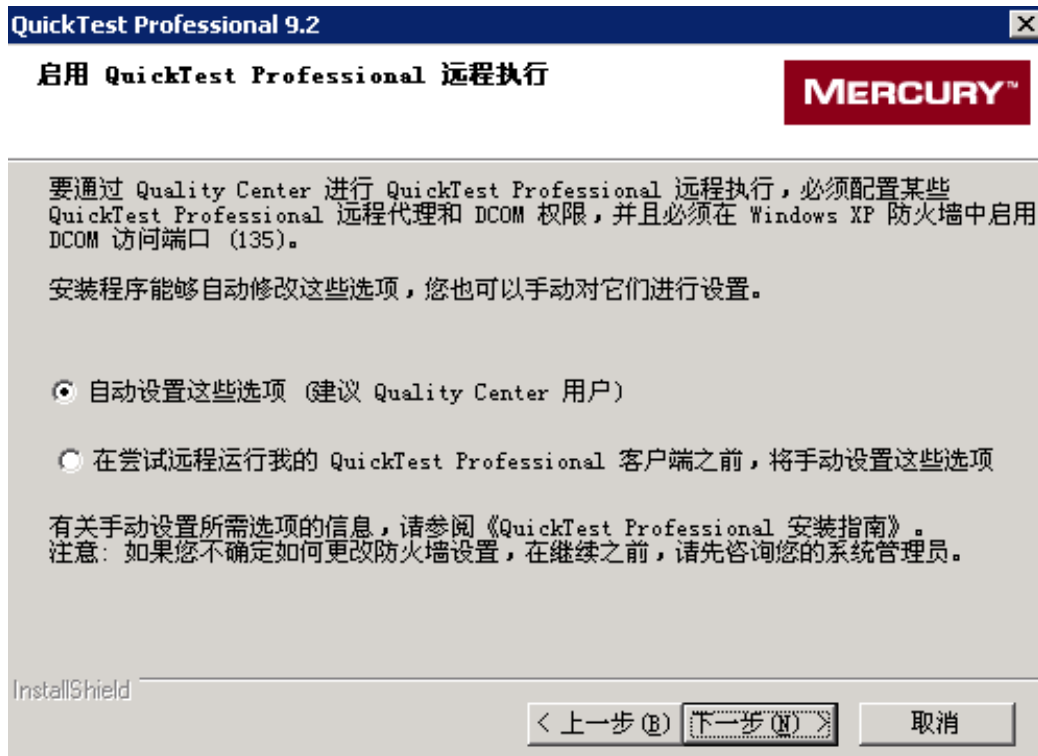

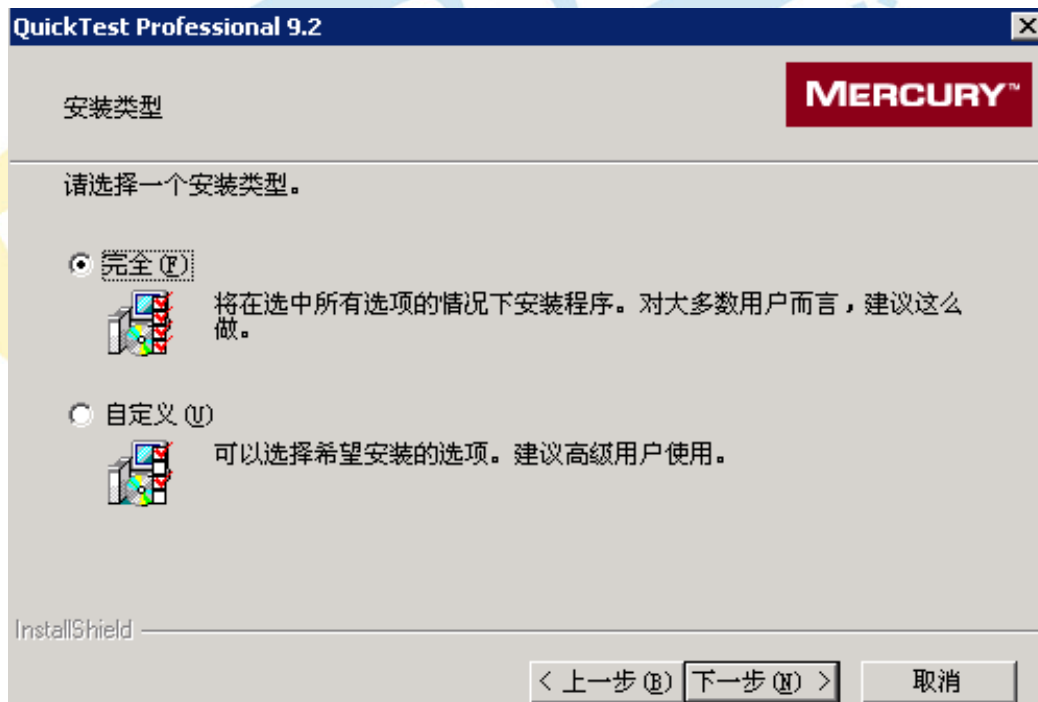

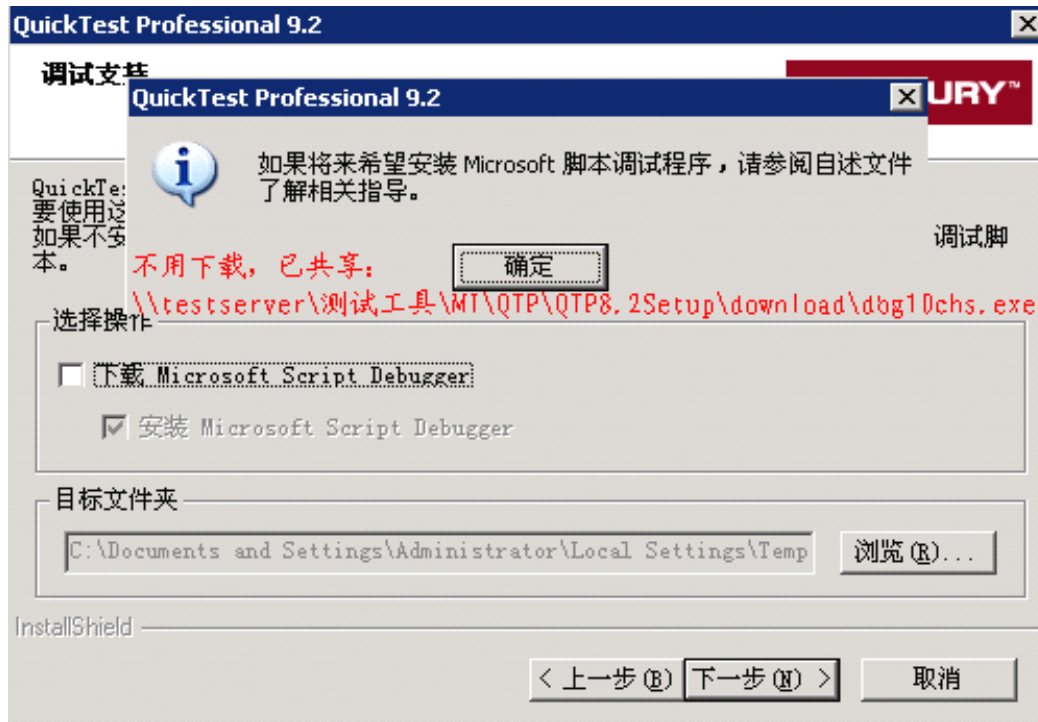

开始安装

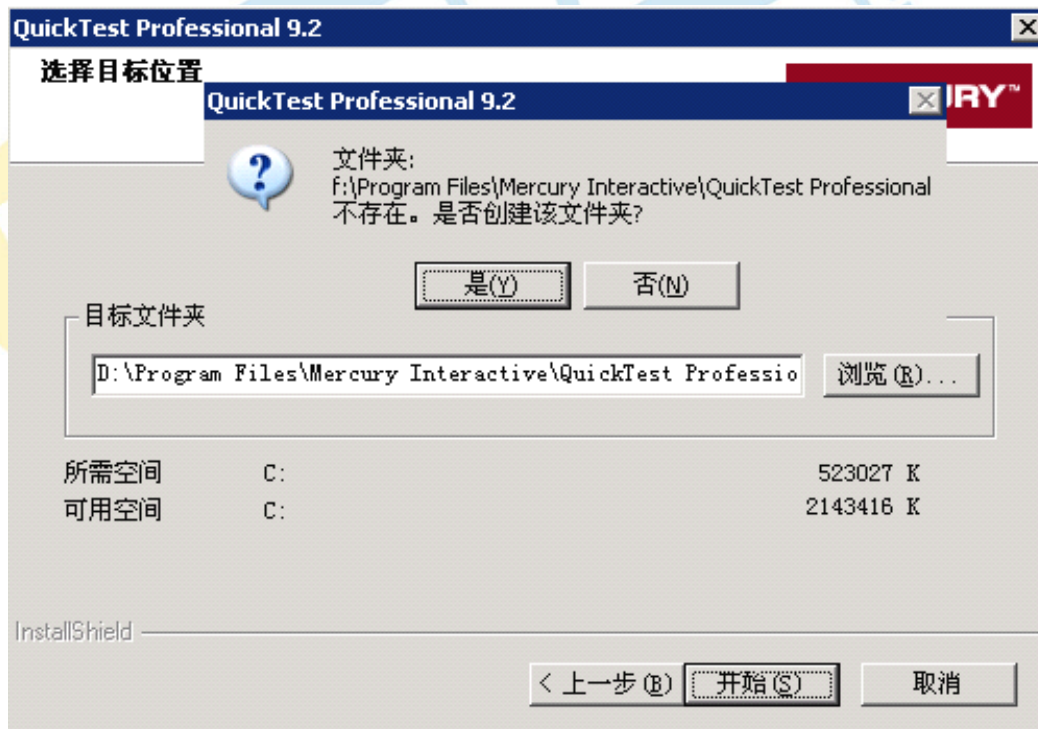

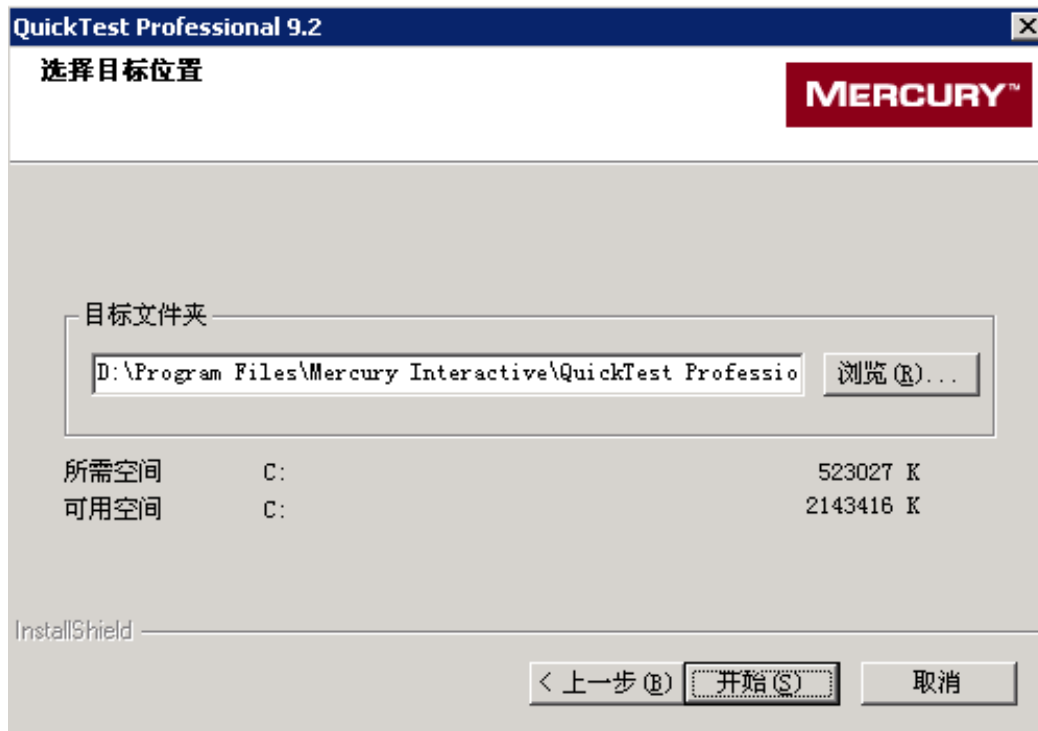

51Testing 软件测试网

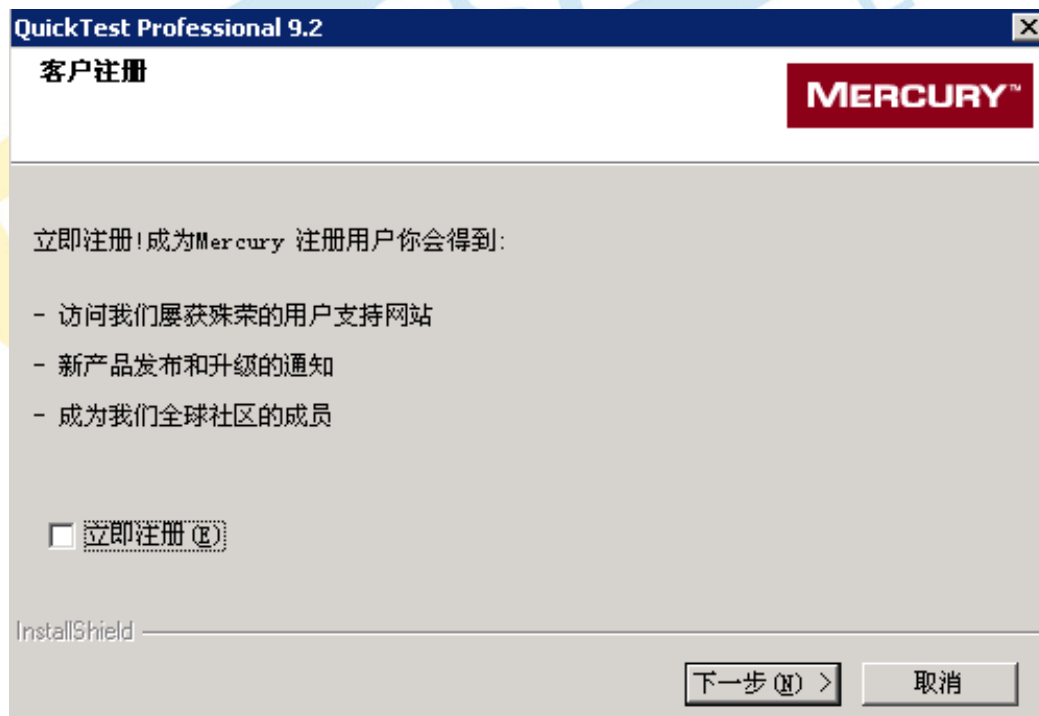

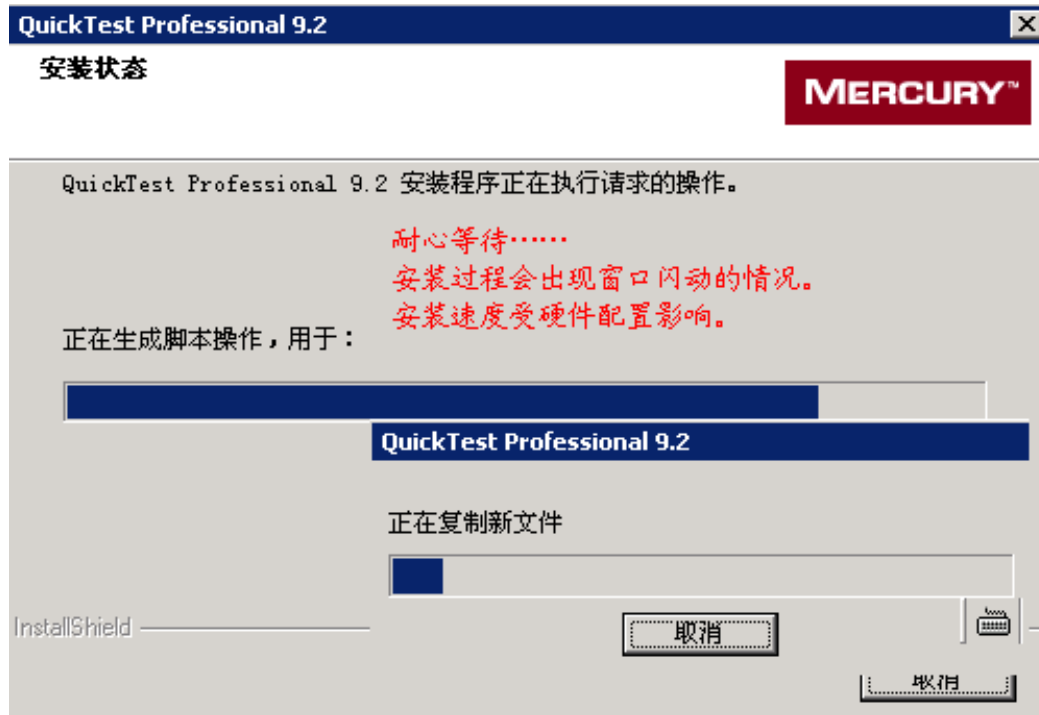

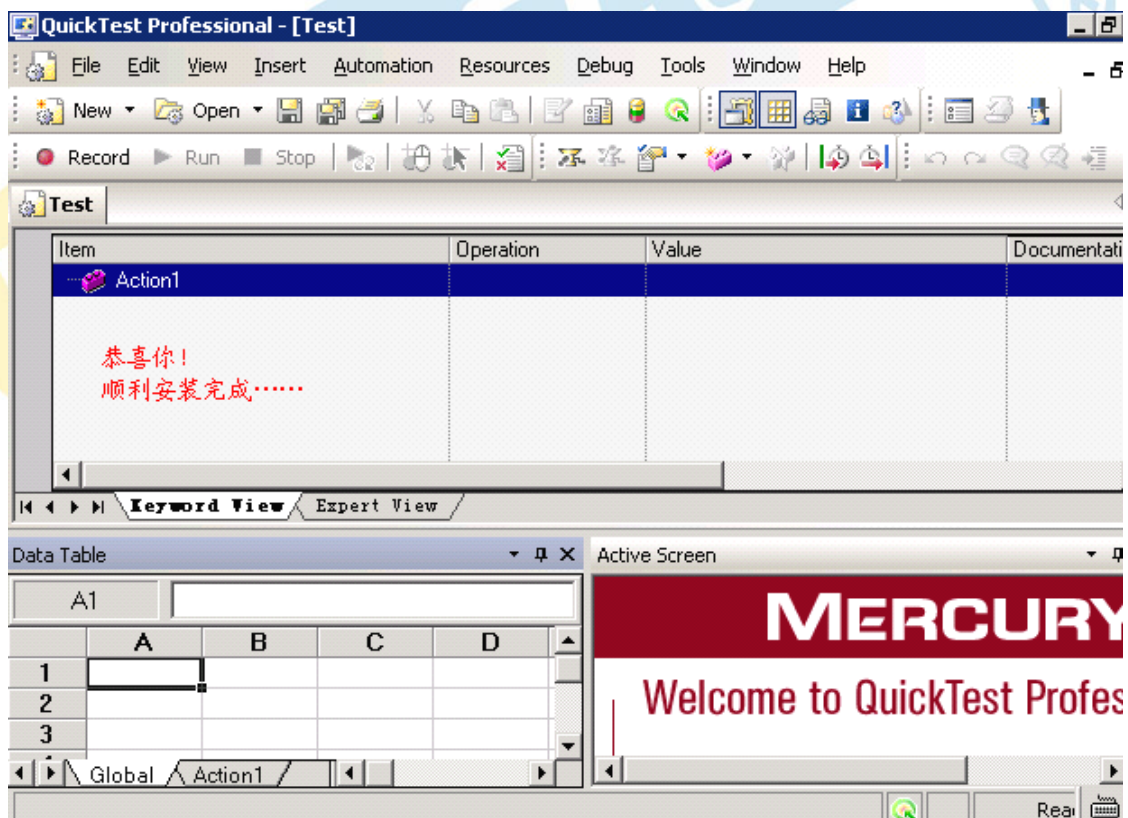

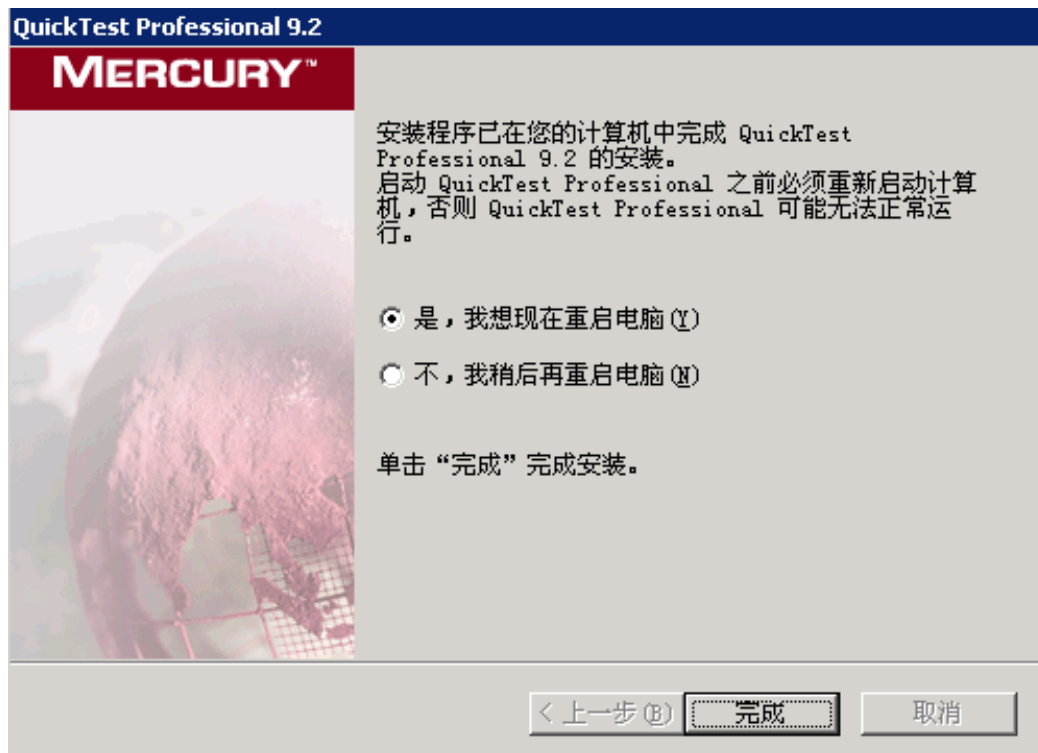

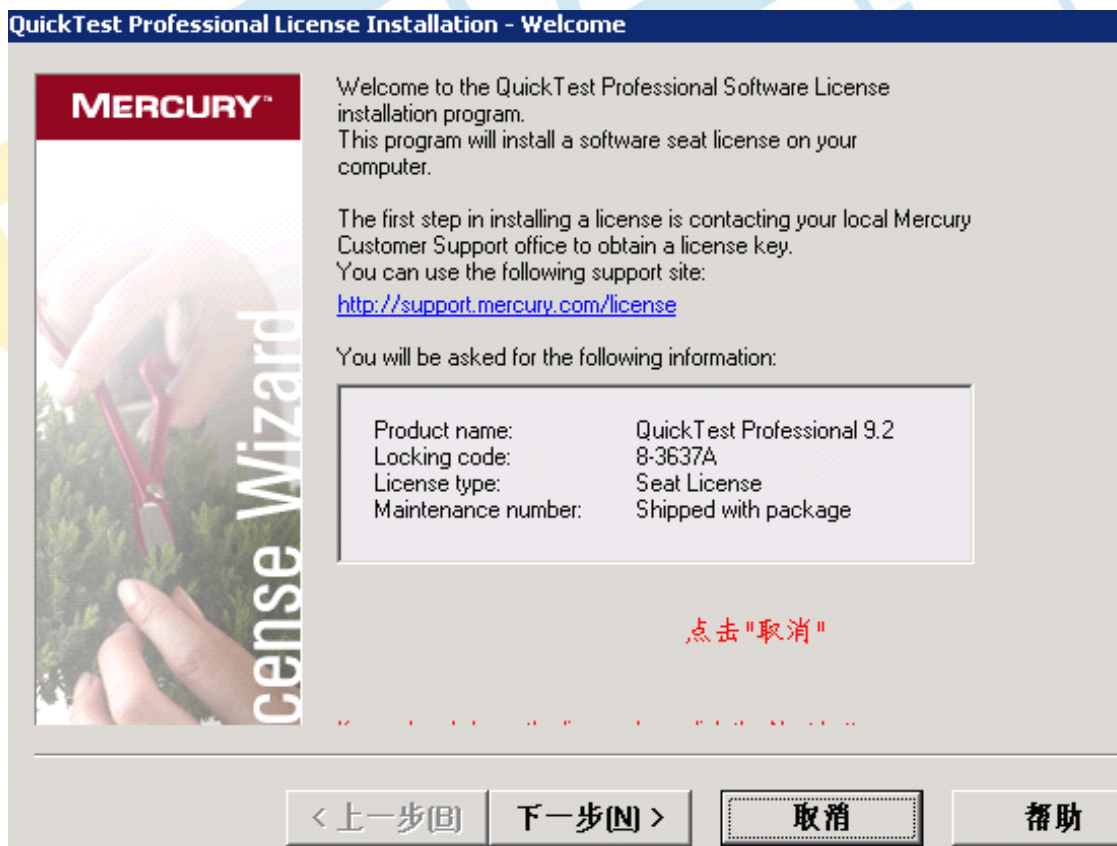

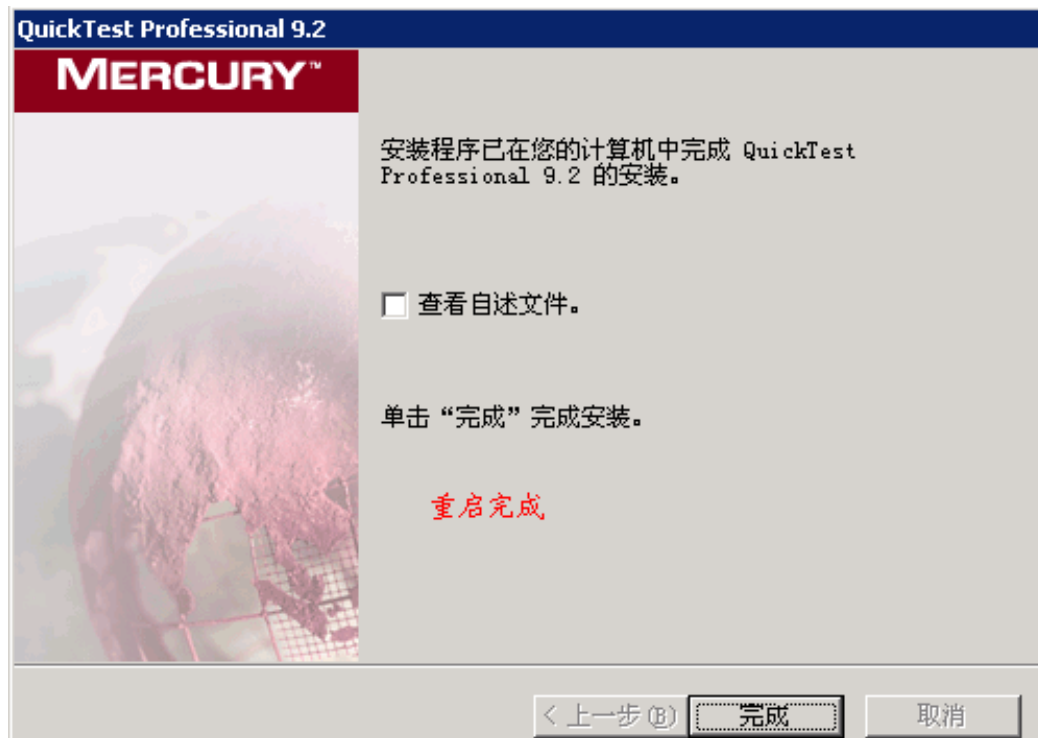

安装完成

点击“下一步”按钮

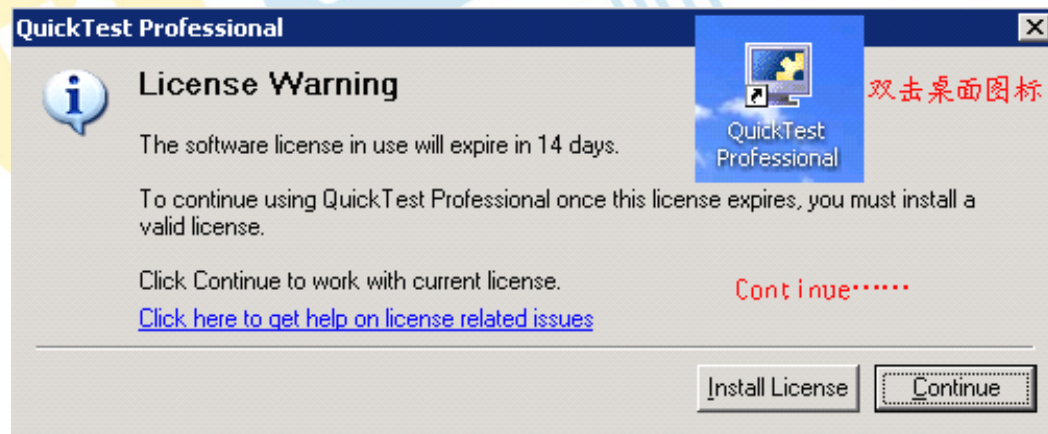

破解方法: (license installation)

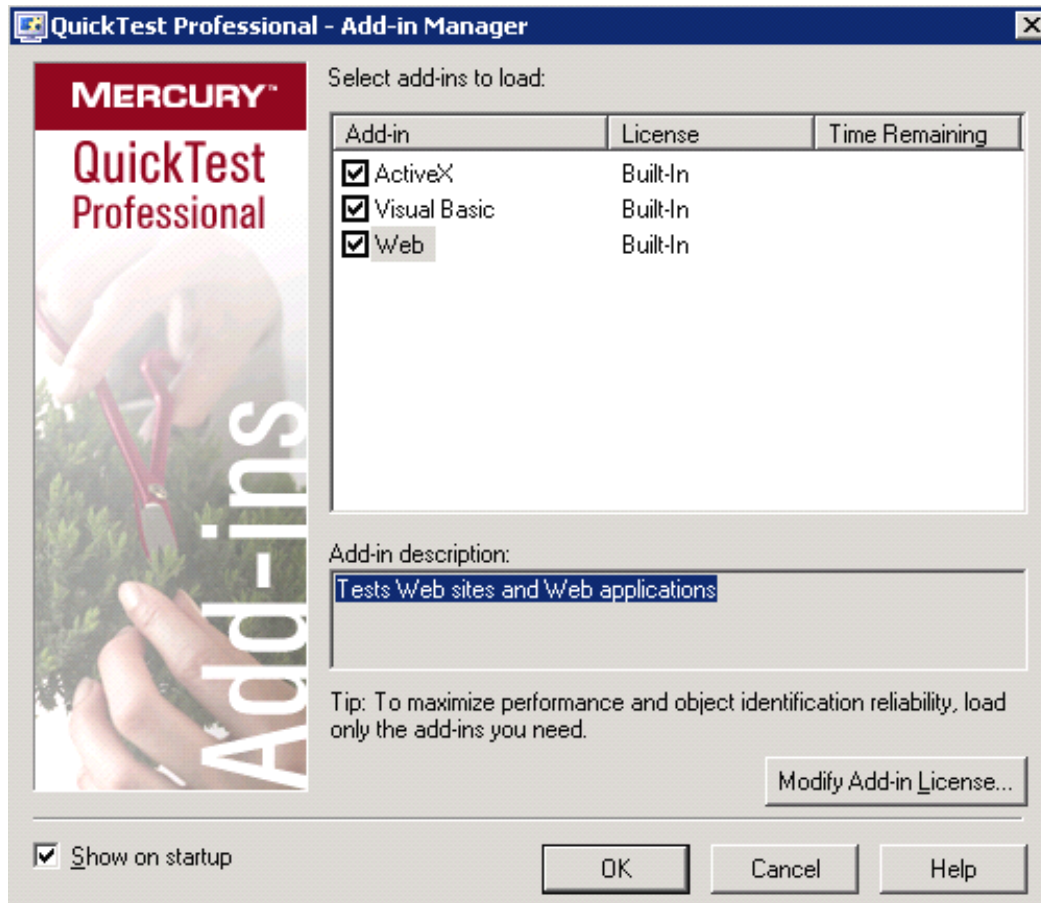

(1) 安装完 qtp 9.2 之后, 将 mgn-mqt8.2 复制到 c:\program files\mercury interactive\quicktestprofessional\bin 目录下(自己安装 qtp 时的安装目录, 不一定是安装在 c 盘), 然后打开 mgn-mqt8.2, 运行它。

(2) 用记事本打开 lserverc 文件(该文件在 c:\program files\common files\mercury interactive\licensemanager 下)。

(3) 打开之后, 复制“ quicktestpro”字符之前的所有字符, 包括#, 将它粘贴到 license 注册页面中就行了。

启动程序

MERCURY™

QuickTest Professional

Tutorial

Start Recording

Open Existing

Blank Test Blank Test
直接新建空白测试。

Tip of the day:

The RegisterUserFunc statement now has an optional argument that you can use to set a function as the default operation for a test object.

Show this screen on startup

安装成功
